Question 3

1 / 1

Which of the following is an incorrect method for structural design?

Hide answer choices

A

Transition of problem models to solution models

B

Handling of larger and more complex products

C

Designing Object oriented systems

D

More procedural approach

Question 4

1 / 1

What is followed by the design task?

Hide answer choices

A

Choosing specific classes, operations

B

Checking model's completeness

C

Following design task heuristics

D

All of the mentioned

Question 5

1 / 1

Which of these is not project development activity?

Hide answer choices

A

Planning

B

Organizing

C

Operating

D

Tracking
